It participates in the grail war as a magician who lives at the present age. It collides with virtual amateur's hero.

Sakura Matou

The hero and the Fujimura teacher are juniors from a past little chance the first school year that continues association which the family is just like below. The withdrawing thought character is done a little, and the one side that sometimes becomes positive for the hero is bad, too.

Beat Angel Sakura & Rin

The childhood friend, Matou Sakura, was Escalayer who was the heroine of justice. Using Doki Doki Dynamo (DDD), she could get the super power overwhelming the evil aliens. However, in order to start DDD, she needed sexual excitement. The enemy's attacks were getting severe. On the other hand, she couldn't get more excitement by herself or by an assistant robot, Rin. Then, they asked Kohei for a help. However, when her conscience had been transferred to the Escalyer's body, her memory had become unstable.

To keep the peace of the world, Sirou forced Sakura to do things in various ways.
